Okuma Örnek Soru

1-5 numaralı soruları aşağıdaki parçaya göre cevaplayınız. *Answer the questions (1-5) according to the passage.*

Cracks can occur in the urethane interlayer around the outboard edge of the window and at bolt hole locations. The cracks are usually in a network that does not run parallel to the edges of the window and are usually in **random** directions (also referred to as crackling). These urethane interlayer cracks frequently occur with white or yellow discoloration. Cracks can also occur in the vinyl interlayer around the perimeter of the window and follow or extend from the edges of internal features, for example, the metal inserts, or bolt holes. The cracks usually appear as thick or broken lines perpendicular to the window panes. It is possible in some extreme conditions to see the vinyl interlayer as stretched or separated from the metal insert.

- 1.) It is stated in the passage that ____.
- A) cracks are never at right angles to the window frame
 - B) cracks tend not to be parallel to the window frame
 - C) it is less likely that cracks are not at right angles to the window frame
 - D) it is more likely that cracks are long straight lines
- 2.) We can infer from the passage that ____.
- A) random direction cracks are more common than those in the vinyl interlayer
 - B) the directions of the cracks can be predicted
 - C) any tool can be used to repair the cracks
 - D) window cracks are a common occurrence

3.)The sentence “These urethane interlayer cracks frequently occur with white or yellow discoloration” can be restated as ____.

- A) urethane interlayer cracks always leave a white or yellow mark
- B) urethane interlayer cracks are often seen as a white or yellow mark
- C) urethane interlayer cracks usually change from white or yellow to another color
- D) urethane interlayer cracks always change from white or yellow to another color

4.)It is stated that vinyl interlayer cracks usually appear as ____.

- A) wide or straight lines parallel with the window panes
- B) wide or straight lines at a right angle to the window panes
- C) wide or discontinuous lines at a right angle to the window panes
- D) wide or discontinuous lines parallel with the window panes

5.)The word “**random**” written in bold in the text can best be replaced by ____.

- A) ordered
- B) usual
- C) consistent
- D) irregular
